

# CREATE YOUR OWN MAGICAL PUFFY PAINT

Create some colourful 3D artworks using your very own homemade puffy paint!

This Do-It-At-Home Activity is perfect if you want to create magical pictures of rainbows, clouds, cupcakes or anything that you really want to stand out!

The Fun Squad's very own Puffy Paint recipe is easy to make, non-toxic and safe to use.

## WHAT YOU NEED

- Bowls
- Spoons
- White Craft Glue (1/2 cup)
- Shaving Cream (1/2 cup)
- Biodegradable Glitter
- Food Colouring
- A4 Paper
- Paint Brushes
- Coconut Oil (2 Tbsp)
- Cornflour (1/2 cup)

## INSTRUCTIONS

### Step 1

Mix the shaving cream and glue in a bowl until combined - it will look like snow!

### Step 2

Separate the mixture into smaller bowls so you can add a few drops of food colouring to each and create some beautiful puffy paint colours.

**TIP:** If you want to make your cloud extra magical add some glitter to your coloured puffy paints!

### Step 3

Draw the outline of whatever it is you have chosen to paint first, then you can build up the puffy paint inside the outline. You can even use your fingers to do this! The more paint you use the better, see how high you can layer the paint!

### Step 4

Wait for your puffy painting to dry!
