

DIZZY SALAD SPINNING CARDBOARD ART

Who knew you could use kitchen utensils to make art?!

Well time to have some kitchen fun! You may have helped an adult dry off your lettuce leaves with a salad spinner before, however now you're going to use it to create some colourful works of art!

WHAT YOU NEED

- Salad Spinner
- Cardboard (cut into circles)
- Blue Tac
- Acrylic Paint (various colours)
- Water
- Plastic Cups
- Spoon

INSTRUCTIONS

Step 1

Mix equal parts water to paint with your spoon in a plastic cup

Step 2

Stick your round piece of card to the bottom of the salad spinner with some blue tac.

Step 3

Spoon on different colours of paint in the centre of the paper. Tip: Not too much, a little goes a long way!

Step 4

Now for the fun part - put the lid on the salad spinner and spin!

Step 5

Now for the big reveal! Take the lid off and have a look at the incredible works of art you have created! The force of the salad spinner spinning around and around so fast has pushed the paint from the centre of the cardboard right out to the edges - creating a beautiful and unique artwork!
