

JUMANJI INSPIRED SCRATCH ART

This totally awesome activity will keep you busy for a while! You first start by creating a kaleidoscope of colour on your paper with oil pastels then (shed a tear!) paint over your design with black paint. Wait until it has dried and you can start scratching!

For our artwork, we were inspired by Jumanji, however you can scratch the paint off in any shape or design - get creative and create your own!

WHAT YOU NEED

- A4 Paper
- Oil Pastels
- Black Acrylic Paint
- Foam Paintbrush
- Skewers

INSTRUCTIONS

Step 1

Use your oil pastels to colour in the paper. You can do this however you want! Swirly patterns, square patterns, blobs... just make sure there is no white paper left!

TIP: You want this design to be BOLD!

Step 2

Paint over the whole page with the black acrylic paint so that all of the colour is covered, then you need to wait for it to completely dry.

Step 3

Decide on your design - use your skewer like a pencil and scratch the paint away to reveal your amazing coloured pattern underneath!
