

RAINBOW PLAY DOUGH CREATIONS

Make coloured play dough using simple ingredients you can find around the house. But don't stop there! Take it to the next level by making all the colours of the rainbow - Red, Yellow, Orange, Pink, Blue, Purple and Green!

From there, you can use all the colours of the rainbow to make some really cool rainbow play dough creations. Of course you can create a Rainbow but also think outside the square - maybe a Rainbow Ice Creams, Rainbow Cakes or Cupcakes, Rainbow Emojis, Rainbow Donuts or Rainbow Snakes! You're guaranteed to brighten up your day with this Do-It-At-Home Activity.

WHAT YOU NEED

- Bowl
- Spoon
- Plain Flour (2 cups)
- Hot Water (1 cup)
- Table Salt (1/2 cup)
- Vegetable Oil (2 tbsp)
- Cream of Tartar (2 tbsp)
- Food Colouring (all the colours of the rainbow!)

INSTRUCTIONS

Step 1

Combine all the dry ingredients in a bowl, that is the flour, salt and cream of tartar and make a well in the centre of the bowl.

Step 2

Add the cooking oil to the well in the middle of the bowl along with a few drops of one of the colours of food colouring.

Step 3

Pour in the water and stir to start forming your play dough. Knead the mixture until it forms a dough. If it feels a bit sticky and wet, let it rest for a few minutes and wait for the salt to absorb the moisture.

Step 4

Repeat Steps 1-3 with all the other colours of food colouring so you have a range of different colours of play dough to have fun with and then get creative and come up with your very own rainbow play dough creations!

TIP: Store the play dough in an air tight container so it doesn't dry out!
